**Re: Response to July 21 EPA Comments on the April 2004 Submission of  
Test Plan and Robust Summaries for Diallyldimethylammonium  
chloride (DADMAC), CAS RN 7398-69-8**

Dear Dr. Hernandez:

The DADMAC HPV Committee is in receipt of the Agency's July 21, 2005 comments on its test plan and robust summaries for diallyldimethylammonium chloride (DADMAC; CAS RN 7398-69-8), which the Committee submitted to EPA on April 27, 2004. We have reviewed the comments and are in the process of developing a response. The Committee recognizes that EPA has requested receiving any modifications to our previous submission within 60 days; however, we would benefit from additional time to develop our response and therefore plan to submit comments to the Agency no later than Friday, October 14.

Please do not hesitate to contact me at 202-419-1500 or [rfensterheim@regnet.com](mailto:rfensterheim@regnet.com) if you have any questions in the interim.

Sincerely,

Robert J. Fensterheim  
Executive Director
